TRAMP

Answer to:
Presentation of the
Requirements Analysis Document

Dick Martin and Horst Mauersberg

November 30th 2001

Questions For The Client

- Will we get the SPOT – if yes, when?
  If no, would it be ok to use an alternative device
  (e.g. Laptop / iPAQ combination)?
  - Yes, in time for testing/use at client acceptance
  - Use Laptop/iPAQ also to back up Spot

- Do we get a speech recognition system?
  - No, speech is not a requirment for TRAMP

- When will we receive a wheel / pointer device?
  - In time for testing/use at client acceptance; talk with
    Jim Beck how to develop for USB "pointer" as a back
    up

Questions For The Client

- E-Payment – what is the priority of security?

  - None, don't worry about security

- Extreme conditions: To which extent is the prototype exposed to noise, dirt, …?

  - No extreme conditions will be encountered

- Will IETMs be available?

  - TRAMP team will develop the turn signal IETMs from the slides provided

  - Talk with Jim Beck for technical approach
